ABOUT ME

Software Developer with a strong foundation in web development, programming, and database management. Experienced in developing full-stack web applications using PHP, MySQL, HTML, CSS, JavaScript, and Python through academic and personal projects. Passionate about solving real-world problems, building scalable applications, and continuously learning new technologies. Seeking an opportunity to contribute and grow as a Software Developer.

SKILLS SUMMARY

- Programming Languages: Java, Python, PHP, JavaScript
- Web Technologies: HTML5, CSS3, Bootstrap 5
- Database: MySQL
- Tools: Visual Studio Code, Git, GitHub, XAMPP
- Concepts: OOP, DBMS, CRUD Operations, SDLC

PROJECTS

• College Management System (March 2024 | Final Year Project)

Developed a College Management System using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap to manage student records, admissions, courses, faculty, and attendance. Implemented secure user authentication, CRUD operations, and an admin dashboard to improve academic administration and data management.

• Library Management System (Web Application) (November 2024 | Academic Project)

Developed a web-based Library Management System using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap to automate book management, issue/return operations, user management, and reporting. Implemented CRUD functionality, secure authentication, and a responsive user interface to improve library efficiency.

• Bank Management System (September 2025 | MCA Academic Project)

Developed a Bank Management System using Java and MySQL to manage customer accounts, deposits, withdrawals, fund transfers, and transaction history. Implemented secure user authentication, CRUD operations, database integration, and an intuitive interface to ensure efficient and reliable banking operations.

• Web Vulnerability Scanner (April 2026 | MCA Major Project)

Developed an Automated Web Vulnerability Scanner using Python to detect common web application vulnerabilities, including XSS, SQL Injection, HTML Injection, and Remote Code Execution. Implemented crawling, payload injection, response analysis, and an interactive Tkinter GUI to automate security testing and generate vulnerability reports.

EDUCATION

- | | |
|---|-----------|
| • RBS Management Technical Campus (Agra) | 2026 |
| • Master of Computer Applications (MCA) CGPA: 8.7 | UP, India |
| • Dr. MPS GROUP OF INSTITUTES COLLEGE OF BUSINESS STUDIES (AGRA) | 2024 |
| Bachelor of Computer Applications (BCA) Percentage: 69.6% | UP, India |
| • New St. Stephen Public School, Agra | 2021 |
| (Intermediate) Percentage: 63.6% | UP, India |
| • New St. Stephen Public School, Agra | 2019 |
| (High School) Percentage: 61.5% | UP, India |

LEARNING AND ACHIEVEMENTS

- Developed multiple web applications using PHP, MySQL, HTML, CSS, and JavaScript.
- Built and deployed a personal portfolio using GitHub Pages.
- Experienced with Git and GitHub for version control.
- Strong understanding of OOP, DBMS, CRUD Operations, and SDLC.
- Passionate about backend development and problem-solving.
